WASHINGTON, Nov. 10.—An important conference concerning the Panapa situation was held at the White House today, just prior to the formal meeting of the Cabinet. The participants in the conference were the President, Senator Hanna and members of the Cabinet. The decision reached, if any, was not disclosed. It is understood, however, that the discussion was purely informal, and was not intended in any manner to be de-

To concede the position to the senate, they assert, would be a surrender of their constitutional powers. It was said that unless the contention of the House was admitted, the same difficulty will be presented as at the last session with the same probability of the measure being defeated. No conclusion was reached by the conference.

Small Portion of Her Wealth.

(BY THE ASSOCIATED PRESS-A.M.1 HELENA (Mont.) Nov. 10.—Gov. Toole late this afternoon called a special session of the State Legislature to meet on December 1 at Helena. The purpose of the session is to pass laws that will relieve the industrial condition in Montana, where by the shutting down of the Amaigamated company's properties, 15,000 men were directly thrown out of work, and 15,000 more affected. affected. Recently in Butte Judge Clancy of

the District Court gave a decision in which he said that he might spoint a receiver at any time for the Boston and Montana Company, one of the largest panies controlled by F. August Heinze, and the Montans Ore Purchasing Company, which has been at war with the Amaigamated for years. Upon this announcement by Judge Clancy, President William Scallon of the Anaconda Copper Mining Company and general manager of the Amaigamated, issued orders to shut down all the Amaigamated properties in Montana and eisewhere, saying the company could not continue to do business, since it courts.

Since that time the Governor has been overwhelmed with petitions signed by thousands of citizens of Montana asking him to call a special session to pass laws to relieve the conditions. The Governor today compiled with this almost unanimous request. The act of the session is to pass a law whereby mining cases may be taken from one court to another when the judge in the initial court is shown to be prejudiced. Other legislation of like character may also be passed. A so-called fair trial bill of the character new proposed, was passed by the last Legislature, but was decided by the Suprene Court to be unconstitutional on technical grounds. Gov. Toole, in his proclamation, disclaims any reflection upon the integrity of the fudiciary of the State, and says the call for an extra session is solely in response to the formidable requests presented to him by the people of Montana, and the fact that thousands of idle men will be permitted to return to work.

however, and the death of the principal promoter caused it to slumber. Meanwhile, the road continued to do a good business between this city and Saltair, the famous bathing resort on the shores of the great Salt Lake. It also handles the product of the companies engaged in the manufacture of salt, a business amounting to 10,000 tons or more a month. But principal among it is chief advantages is its splendid right of way entrance into this city. It was thought at one time that it would be purchased by one of the big roads seeking entrance into this city, but the company, it is understood, has raised sufficient money to build 150 miles westward into Deep Creek, and it is stated it will do so as soon as it secures its rights of way over intervening territory.

HIGHER PULLMAN RATES.

RELATES TO TOURIST CARS. (BY DIRECT WIRE TO THE TIMES.) CHICAGO, Nov. 10.—[Exclusive Dis patch.] Tourist sleeping-car rates from Chicago to the Pacific Coast are to be advanced December 1. The Pullman Chicago to the Pacific Coast are to be advanced December 1. The Puliman Company has issued a circular to this effect, in which it is stated that on and after the date named the rate in tourist cars will be \$7, instead of \$8. New schedules showing the advance were issued today.

While the Puliman Company itself gives no reason for its action, passenger officials say that the advance is occasioned by the increase in the cost

Another reason for the increase, ac-cording to passenger men, is the ex-cellence of the tourist-car service. It almost equals the service of the stand-ard cars, while the fare has been less than one-half of that charged for accommodation in the standard sleeper It is now the purpose of the Pullman Company to readjust the tourist-car rate so that it will equal half the tariff rate so that it will equal half the tariff charged for the standard sleeper. It is not known what action the Great Northern will take regarding the advance. NEW YORK, Nov. 10.—The marriage of Miss May Goelet, only daughter of Mrs. Ogden Goelet, and one of the richest of American helresses, to Henry John Innes-Ker, eighth Duke of Roxburghe, was solemnized today at St. Thomas Church in this city. Bishop William Croswell Doane of Albany, assisted by the Rev. Ernest M. Stires of the St. Thomas Church performed the ceremony. A company of 250 guests, a small number for an international marriage of such importance, witnessed the ceremony, but masses of paims, shrubs and flowers banked the church so effectively that the great nave seemed far from empty. In the chancel itself, where the ceremony took place, paims, Japanese chrysanthemums and English primroses were combined in an artistic color scheme, with which the orchids on the pulpit and the illies about the aitar toned beautifully.

Forming in the outer vestibule of the church, the bridal party proceeded down the aisle to the chancel steps, the bride on the arm of her brother. Robert Goelet. She was gowned in white satin valled with point valenciennes lace, and trimmed with wreaths of orange blessoms. Her vell was of tulie, and whe carried an old-fashioned bouquet of illies of the valley.

The maid of honor, Miss Beatrice Mills, and the other bridesmalds, Lady Isabel Innes-Ker, Miss Marian Haven, Miss Therese Iselin, Miss Nina Thayer, of Boston, and Miss Pauline Whittier, wore gowns of pink mousseline de, soie, embroidered with ceru lace, toques of pink velvet trimmed with lace and sable, and carried, in place of bouquets, muffs of pink velvet and sable. The ushers—Hugo Baring, Howard Brassey, Robert Wharton Goelet, Regers Winthrop, Henry Bull, and William Woodward—did not precede the bridal, party as customary, but were seated before the bride entered.

At the chancel steps the bride was met by the Duke and his, best man, did not precede the bridal party as customary, but were seated before the bride entered.

At the chancel steps the bride was met by the Duke and his best man, the Hon. Reginald Ward, son of the late Earl of Dudley, and the betrothal service of the Protestant Episcopal Church was read by Mr. Stires. The party then advanced to the altar rall, where the Episcopal marriage ceremony was said by Bishop Doane.

Afterward the Duke and Duchess went to the home of Mrs. Ogden Goelet on Fifth avenue, where an informal reception, to which only a part of the wedding guests were bidden, was held. It had been intended to make the wedding a more brilliant function, bus the death of Sir Michael Herbert, uncle of the bride, caused the change in plans.

CAN'T BEAT PRESIDENT ON CURAN OUTPE ON CUBAN QUESTION

NO ONE WILL LEAD FIGHT AGAINST RECIPROCITY TREATY.

Republicans from California Michigan Discover no Organised Opposition to the Administration's Policy, Even Among the Democrats.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, Nov. 10 .- [Exclusive Dispatch.] It became apparent today that all attempts to beat the President in his Cuban reciprocity scheme are apt to be ineffectual, so far as the House of Representatives is concerned. Some Republicans from beet-sugar States like California and Michigan have been trying hard to get up oppe-sition to the Cuban treaty, especially sition to the Cuban treaty, especially in the House, it having appeared some time ago that the Senate will vote in favor of putting the treaty into effect. But when an attempt was made to organize opposition in the House, it was discovered that while there are several Republican Representatives who will not vote for the treaty, there was no one who cares to undertake the management of a campaign that was very likely to end in defeat. Most of the Representatives who do

ot believe in the treaty say they will see no advantage to be gained, for themselves, their districts, or for the Republican party, in making a losing fight against a measure to which the Republican administration is so fully committed and which, from present indications, will go through anyway. If Democratic opposition could be de-pended upon absolutely, there would be some chance of defeating the treaty, but Democratic opposition cannot be

For several hours this afternoon the Michigan delegation in the House, which did effectual work against Cuan reciprocity a year ago, was in ses-on in William Alden Smith's committee-room, debating whether another fight should be made. If any opposition is to be put up against the treaty it must be led by the Michigan delegation, because that delegation represents the second heat sugar State in the sents the second beet-sugar State in the ountry, and its Republican members country, and its republican members cutnumber California's Republican members. After several hours of debate, however, the Michigan men reached no conclusion. They could not could not see where there was any chance of winning against Mr. Roosevelt's programme, so this delegation took no action looking toward oppositin to the treaty, and a member of the Michigan delegation said tonight that, in his opinion, the props had fallen from under the fight against the Cuban treaty.

LITTAUER ASKS REOPENING.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Nov. 10.—Representative Littauer of New York today renewed his sequest on the President for a reopening of his glove contract case in the Department of Justice. It is understood to be Mr. Littauer's intention, in the event of failure to induce the Attorney-General to reopen his case, to appeal to Congress for an investigation of the glove case. It is intimated that he may exercise his right to discuss the case on the floor of the House.

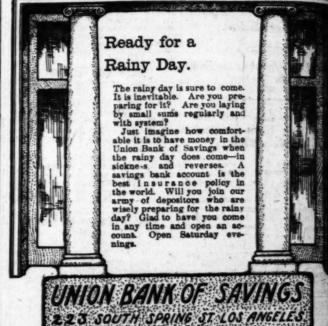

Atty.-Gen. Knox today made public recent correspondence which passed between himself and Rogers, Locke and Milburn, counsel for Representative Littauer, relative to the reopening of the case, involving the latter's connection with the contract awarded to E. R. Lyon for 'furnishing the army 20,000 pairs of gauntiet gloves.

In the course of his reply, declining to reopen the case, the Attorney-General says:

500 Exceptionally Choice Garments

Manufacturer's Surplus Stock at Way Below Value For this skirt sale we offer a round 500 skirts made by the best manufacturer in United States. The materials are exclusive in style and wonderfully durable; no tailor could produce better hanging or more oerfectly finished garments at any price; and no other store in Los Angeles can show better finished goods no matter how high the price. The styles are right down-to-the-moment, many of them being advanced ideas for the coming spring. We offer five groups of these goods for today's selling, priced as follows:

\$3.98 for Skirts worth up to \$6.00 \$4.98 for Skirts worth up to \$8.00 \$5.98 for Skirts worth up to \$10.00 \$7.48 for Skirts worth up to \$12.50 \$9.98 for Skirts worth up to \$15.00

There are blacks, and all the popular plain colors; checks, stripes, mannish mixtures and Scotch effects; unquestionably the choicest collection of high class skirts ever shown in this city. The very best things will undoubtedly go first, so an early response is advisable, but if you get the last skirt in the lot you'll secure a bargain.

Sale Phipps & Atchison Hats

Today we offer a new collection of stylish outing hats for women from the factory of Phipps & Atchison, who occupy the same place in the women's hat marked that Knox and Dunlap do in the men's trade. These hats are marked by exclusiveness in design and material, by exquisite make and finish: and because of their being handled by exclusive stores they are usually retailed at exclusively high prices, but all good things eventually find their way to the Broadway Department Store. Today we demonstrate once more the ability of this busy store to furnish merehandise of the highest character at about one-half the usual charge. Every hat in this collection is absolutely correct in style and detail; if you're interested be prompt, as such high grade goods at such remarkably low prices will meet with very ready sale. Hepe are the prices:

The annual report of Secretary T. J.
Stuart for the fiscal year ending October 31, 1903, shows receipts, including the 3989.78 cash balance Novembeen Los Angeles and San
o, formed by two large mounsams heading far up in the
support of the colory of the server of 4888.89, leaving \$1471.81 cash
on hand October 31, 1903. In addition
to this expenditure special transportation amounting to 33610 was furnished
through the society. The detailed report is subjoined: fornia which the government is considering under the national infl-gation act will, if undertaken, add in wonderfully fertile land to the re-claimed area of the Golden State. Government engineers have been en-gaged upon preliminary surveys for pwards of a year, and in Southern upwards of a year, and in Southern California, a few weeks ago, 4,000,000 miner's inches of water of the Colorado River were filed upon and appropriated by the government, which means in reality the entire flow of this "Nile" of America. The entire surrounding land—over four million acres—has also been reserved. The ultimate reclamation of land through the great evatem of dams and canals eventually ich delta land.

The second project which has been investigated is the storage of the waters of the King's River, about midway between Los Angeles and San Francisco, formed by two large mountain streams heading far up in the program of the control Francisco, formed by two large mountain streams heading far up in the snow-capped Sierras. The regular flow of the King's River irrigates today an enormous acreage in the fertile San Joaquin Valley, while the storage of its waters by the government would increase its irrigable capacity by at least 100,000 acres. At present its flood waters flow wholly to waste, as does likewise almost the entire flow of the Colorado River, flowing through the extreme southern part of the State and emptying into the Gulf of California.

extreme southern part of the state and emptying into the Gulf of California.

Still another enterprise which has commended itself to the government engineers is what is known as the Clear Lake project in the northern part of the State. Situated 1000 feet above sea level, Clear Lake is a beautiful sheet of water obvering about forty thousand acres. By stretching a low dam across its lower end and raising its surface only six feet 240,000 acres feet of water could be stored, sufficient to irrigate over 200,000 acres of the highly productive land of the Sacramento Valley. Here, where there is considerable rain fall, much less water would be necessary for irrigation than in the southern part of the State, where both aridity and an almost tropical climate necessitate heavy irrigation. Clear Lake project, all in all, is declared by the Federal engineers, to be one of the best irrigation propositions in the West.

It happened last Saturday afternoon in one of the Spring-street drug stores—and in addition to being too good to keep, here's where the reporter gets even with that drug clerk.

When a certain stunning Los Angeles girl came sailing in, the dapper young clerk who had been too busy to wait on me managed to find time to attend to her wants. She asked if he could put up castor oil in such shape that it could not be tasted when taken.

Certainly he could—and he began hustling among the jars and bottles. Finally, he asked if she would like a glass of soda water while waiting. Britt gave a fine exhibition of blocking and covering, and then put his right to the body. Britt slipped to the floor, but was up quickly and got a right to Seiger's body. Britt whipped to the floor, but was up quickly and got a right to Seiger's body. Britt whipped to the Islain. Britt jabbed with left to the face and they went into a clinch. Britt again hooked a left to the stornach and right to the kidneys. Seiger missed a fearful right swing for the jaw, and the round closed with tent man in a clinch.

Ninth round—Seiger came up in fair shape, and forced the fighting. Britt caught him in the body with a left hook, and then missed two lefts and aright left for the head for the body. Seiger got a right to the head, but received in return a right on the jaw and left to the body which made him wince. Britt at this stage had a clear lead over Seiger, and was outboxing him at every stage.

Tenth round—Jimmy, quick as a flash, drove a terrific left to the body and sent another left to the body shipped to Kentucky his long-distance racer Igniter, in company with Arsenal and Mary Street. After the Wash-lington meeting, the Barrick string will

The order was suppressed in France at the time of the revolution, but later was revived and the members collected again at Chartreuse, where St. Bruno first laid the foundation of the order, and which has been the mother house of the monks until the expulsion that occurred only a few weeks ago. It is the boast of the Carthusian order that it has never required a reform, having always been free from abuses and degeneracy. The austere old monks evidently were students of human nature in their solitude, for Dom Guigo, one of their early leaders who formulated the unwritten laws of the Carthusians, said:

The procession up the stairs continued all day. Roberts was reaping a rich harvest, and the end was not yet. Encouraged by his success Roberts put an advertisement in The Times of November 3, asking for a good penman with \$50 to spare.

Mrs. Burt, who was only a casual observer of the "doctor"s" calleras, thinks she noticed about fifteen persons, who may be designated as suckers. How many more there were only the "doctor" knows.

It might be taought that a good deal of confusion would result from having so many assistants to do office work. Roberts guarded against any pitialis, however. WHOLE TRUTH OUT.

It was about noon yesterday when Mrs. Basch unbosomed herself to the District Attorney and obtained his consent to spare her further huralisation and exonerate Hennessey by quashing the proceedings against him. Mr. Fredericks would not consent to drop the matter until she had msde a full confession of her folly. He dragged the whole of the ugly truth from her, and when she had got through there was not a particle of evidence to show that Hennessey ought to be sent to State's prison for assault and robbery.

Mrs. Casch was somewhat finstrated after her ordeal with her "father confessor," Capt. Fredericks, but there was a look of relief on her face as she left the Courthouse.

They said it simply confirmed the results of their investigation. Mrs. Basch's record was simply confirmed the results of their investigation. Mrs. Basch's record was so sunsavory, they said, that she did not dare go into court and tell the cock-and-buil stories on the witness stand that she had told out of court.

"It did not take us long to find out that the alleged outrage on Mrs. Basch was a fake," said Chief Elton. "Even her own mother admitted as much, and came up here to beg me to stop the prosecution of Hennessey. I told her that as soon as Mrs. Basch made a statement, written and signed by herself, acknowledging that it was a put up job, we would drop the proceedings, but so long as she kept on pretending that she had been the victim of assault and robbery at the hands of this man, it was our duty to prosecute, and make her testify, so as to have all the facts brought out in court. SUMMARY OF THE DAY.

Under suspenson of the rules, the olice Commission granted two restaurant liquor scenses yesterday morning to persons who recently had their li-censes revoked for violations of the laws. An ordinance of the city says that whenever a conviction is secured in the Police Court the license of the offender must immediately be revoked by the Police Commission. How well the board has lived up to the letter and not to the spirit of the law was illustrated by the action taken yester-

The records of the Police Commission meeting held October 13 last contain the following paragraph:

"The Chief reported the arrest and conviction of the proprietors of the following-named places holding restaurant liquor licenses for violations of the liquor orcanances, to wit: M. Mastinich & Co., No. 316 North Main street, and Marincovich & Marietich, No. 322 North Main street. On motion the licenses of the two named concerns were ordered revoked."

Despite the action by the authorities in arresting and fining these men, and the subsequent revocation of the licenses, the Police Commission gave back the permits yesterday, resorting to the hollow pretense of granting the licenses to one member of the firm in each instance, instead of to the companies.

Peter Marincovich was granted a

Peter Marincovich was granted a restaurant liquor license at No. 322 North Main street.

M. Mastinich was given a restaurant liquor license at No. 316 North Main street.

As a penalty for violation of the law these firms suffered a loss of business for just ten days. The revocation of the October license did not take effect until the end of the month, and consential the end of the month, and consential action is on a par with the usual custom of transferring a license from one book-keeper to another when for any reason some unfortunate and irresponsible barkeeper is convicted of selling liquor on Sunday or keeping open after hours.

Howaver, it is alleged that in this case there were many mitigating circumstances. The keepers of the salorins are foreigners who do not understand English any too well, and it is alleged that they violated the law through ignorance. It would appear, however, that the Police Commission has placed itself on record as in favor of keeping in control of saloon and restaurant liquor licenses persons who are too ignorant to know and obey the ordinances of the city.

Neither Mayor Snyder nor Commissioner Keeney attended the session of the board. The Mayor was in his office at the time the vote was taken on the licenses, having just returned from a trial in the Police Court where he was subpoenaed as a witness. Commissioner Rule presided. Commissioner Craig moved and Commissioner Craig moved and Commissioner the

sioner Craig moved and Commissioner Lang seconded the motion to grant the licenses, under suspension of the rules. If the usual rule had been followed the applications would have been referred to the Chief, and he would have been compelled, officially, to call the attention of the board to the prior arrest and conviction of the applicants.

RUMPUS OVER LICENSE. A crowd attended the Police Commission session yesterday morning to see the second act in a serio-comic saloon-license drama now being staged under the management of Maler & Zobelein and Adloff & Hauerwaas, Frank Hatton shared the limelight with John Malby, who is accused by the Maler & Zobelein faction of being unfit to hold a saloon license,

& Zobelein faction of being unfit to hold a saloon license,
Last week Maiby made application to the board for a transfer of the saloon license at No. 847 South Los Angeles street from Frank Hatton, and for a change of location to No. 839 East Third street. A protest was made at the time by the Maier & Zobelein representative, who alleged that there had been sharp practice in the saloon deal.

deal.

According to the report made by Chief Elton to the board yesterday, Hatton signed a transfer agreement in blank when he took charge of the saloon, and also gave the Maler & Zobelein firm a contract under which, presumably, he agreed to sell their beer. On October 27 last, Philip Slatri concluded negotiations for the purchase of the saloon, and Hatton gave him a bill of sale, naming 3375 as the purchase price. Whether this proceeding had the sanction of Maler & Zobelein was not brought out yesterday.

With the bill of sale Hatton turned over to Slatri the blank form of transfer bearing his signature. The same day Slatri sold the saloon to John Malby for

With the bill of sale Hatton turned over to Slatri the blank form of transfer bearing his signature. The same day Slatri sold the saloon to John Malby for a stated consideration of 3660, and filled in the transfer sheet with Malby's name. Now the Police Commission is asked to transfer the license of Malby direct from Hatton, although Hatton had no intention of selling the saloon to him. Slatri's name does not appear in the proceedings. It now appears that Malby is acting in the interests of Adloff & Hauerwass, a rival brewing firm, and therefore Maler & Zobelein have entered a strenuous protest to the proceeding. To further complicate matters, Hatton now objects to the transfer of the license to Malby, although his name appears on the transfer application as giving his consent. If the license goes to Malby, Hatton will be liable for damages under his contract with Maier & Zobelein to handle their beer at the location named.

Still another cause of festivity is added by the fact that a change of location is requested to No. 639 East Third street, and a protest has been filed by property

The Police Commission issued licenses yesterday to M. Mastinich and
Pefer Marincovich, despite the fact
that they were recently convicted of
a violation of the liquor laws and their
permits were revoked by the board.
Quite a flurry was caused at the
police board session by the controversy
between Maier & Zobelein and Adloft

slated to make a commission of \$625 for wresting from Maier & Zobelein one of their licenses.

Attorney Edward F. Wehrle appeared for Maier & Zobelein yesterday, Maj. John T. Jones for Adloff & Hauerwaas, E. E. Bacon for Hatton, and sundry other lawyers for other persons interested in the case. Attorney Wehrle tried to introduce evidence to show that Malby was not a fit man to hold a saloon license, and asked permission to place Chief Elton on the stand. Commissioner Craig made objection to this proceeding, and declared that the board should not' be used as a collection agency by any brewing firm. Commissioner Rule thought it inadvisable to recognize day brewing firm as having any interest in the licenses granted by the board to private parties, although it is well known by the commissioners that over three-fourths of the Jicenses are controlled by the breweries. It was finally brought out that three years ago Malby was arrested for having persons other than employés in his saloon after closing hours: that he was convicted and paid a fine of \$60.

The case is very interesting as portraying the methods used in the transfer of saloon dicenses under the present saloon system. No decision could be reached by the board yesterday morning, and the hearing was continued one week.

APPOINTED OFFICERS. In order to facilitate the collection centes the Police Commission ap-Collector E. E. Johnson. The city ordinances contemplate the appointment of these men as regular policemen, but the formality was never attended to by the deputies. They will be given regular police stars, but of a number higher than entitles the wearer to transportation on the street railways.

wholesale liquor license at No. 448 Santa Fé avenue. Commissioner Lang requested Chief Elton to furnish the board at the next session with a complete list of all crimes committed during October and the number of arrests and convictions made by the department.

Examinations to be Held.

The Civil Service Commissioners decided yesterday to hold examinations at the Spring-street school on the 28th inst. for day attendants in the library; desk clerks, street department; cobblestone gutter layers, engineer pneumatic sweepers, excavation inspectors and carpenters, street department; linemen and inspectors, electrical department; quarantine guards and inspectors, health department. The report of the examination for places in the fire department was held over one week. Examinations to be Held.

It takes more real talent to get prop It takes more real talent to get properly "fired" from a baseball team than it does to lead the batting average. This melancholy fact was shown yesterday in the trial of the case in which Ed Huriburt-martyr to economy—was suing Manager Jim Morley for the wages he would have got if he had been officially fired.

It appeared that he did not get the dinky-dink according to Hoyle, and he lost his suit. Huriburt was hired last April by

Morley from the Detroit team. He wanted \$2000 for the season, but melted at \$1600 that Morley offered, and came

at \$1600 that Moriey offered, and came on to piay in the infield.

He went out on the slide for retrenchment last October, and has been hanging around ever since, demanding his job or his pay.

In court yesterday, however, it was shown that he had nothing in the way of a written contract for the season except this telegram purporting to be from Morley: "Can't pay but \$1600. Pacific Coast League."

He had to admit on the witness stand that he always drew his money from Al Levy instead of Morley, and that the only money transactions he ever had with James were to occasionally get an order from him on the treasurer a few days ahead of time.

When he was "released"—he had not been struggling very hard: but that's what the fans call it—Levy showed him a telegram supposedly from Morley, and signed with his name, which said: "Must cut down expenses. Release Hurlburt and Drinkwater."

"It was sumppum like that," conceded Hurlburt, in a gloomy tone of voice.

Justice Young held that Hurburt had not enough to show the existence of any contract with Morley, and gave judgment against the ball player.

Sunny Jim and Hurburt passed out of the courtroom almost side by side, but each absorbed in a distant land-scape, and not notting neighbors at all.

CHAMBER TO ACT ON CAMINO REAL PROJECT.

NORTHERNERS SEEM INCLINED TO STEAL GLORY.

Active Organization to be Formed Immediately Under Auspices of Landmarks Club on Behalf of the Highway in the South.

Directors of the Chamber of Comment.
Chairman of the Landmarks Club, will address the board on the subject, the object in view being the formation of an active organization under the auspices of the Landmarks Club to begin work on the project on a practical basis, with the cooperation of the chamber.

The immediate cause of this move is the appearance here of a representative from Northern California, who is seeking to work up from that part of the State a proposition to build a road over the entire course of the ancient Camino Real, much as if the people down here, who have held the cause near to their hearts for ten years past, had never heard of it before.

Mrs. Carolina R. Olney has come here from the north, with the backing of certain people who have become interested beyond the Tehachepi, for the purpose of arousing public interest toward the organization of a State movement for the building of a modern highway over the course of El Camino Real, or the ancient route of travel of mission days, from San Diego to San Francisco Solano.

To the Landmarks Club and those identified with its work, this seems like bringing coal to Newcastle, and savors of an attempt to divert the glory of originating and furthering the project from Southern to Northern California. It is well known here that for ten years Miss Anna B. Picher of Pasadena has

of an attempt to divert the glory of originating and furthering the project from Southern to Northern California. It is well known here that for ten years Miss Anna B. Picher of Pasadena has worked indefatigably in behalf of the project, with the assistance of the Chainber of Commerce, which has furnished her space for an exhibit illustrative of the plan; and for eight years past the Landmarks Club has lent its influence to the movement. Why this agitation from the north, then—Just awakened up there, and trying to get ahead of the game?

But the important contention upon which the local Caminoists base their right to the work in the southern field is that geographically it is not practicable for one organisation to undertake the building of the highway over its entige length, the portion of the route lying within Southern California falling naturally under the jurisdiction of the projectors of the plan in this part of the State, represented, in organized form, by the Landmarks Club. What the latter wish to see is cooperation between the two sections, but not an assumption of the project in its entirety by newly-awakened enthusiasis "up north."

The Chamber of Commerce and the Landmarks Club have not indorsed Mrs. Olney's innovation. Steps are to be taken immediately for pushing the work from this end of the line. County and State cooperation will be sought, and the national government has already been led to investigate the plan through the Department of Public Roads Inquiry, a representative of which, James W. Abbott, is now in the city. It is said that the latter has expressed himself in favor of the northern projector's plan of a State organization, from the point of possible government assistance.

MUSICIANS WON EASILY.

A large and boisterous crowd of spectators gathered in the Monarch alleys last night to see the Commercial league contest at tenpins between the Bartlett Music team and the Al-Ards. White it was only an average exhibition from a bowling standpoint it furnished plenty of amusement for the onlookers and resulted in a victory for the musicians by the score of 2345 to 2189, as follows:

Mss Anna Thone and Wesley H. Pics United - Groom Gransson of Pio Pico.

Instantaneous love born a month ago between a fair passenger and a conductor on a street car here, was capped by an equally uncermonious marriage of the two last night.

It is an unusual romance. The bride is a Chicago girl, wealthy in her own right. The groom is of noble Spanish lineage, a grandson of the renowned Pio Pice, the last Spanish Governor of

ompany with her brother, several months ago, and became so enamored of Los Angeles that she decided to remain indefinitely. Her brother returned to the Windy City, and the girl stayed to live with her aunt, a Mrs. Alien, at the Hotel Figueroa.

HIGH SCHOOLS TUSSLE.

The Berkeley High School football eleven, the champion team of the north, will meet the Los Angeles High School team in this city on Christmas Day in a grand tussle for the State interscholastic football championship.

The teams are said to be evenly matched in weight and the game should be good.

The local eleven is easily the best football team put out by any High School in this section, and in matches with Belmont has more than held its fown, and will no doubt be able to give a good account of itself on Christmas Engles Loss and Loss and will no doubt be able to give a good account of itself on Christmas Loss and The Berkeley High School football

HANLON WANTS OUR CRACKS.
The following item from a 1 te issue of the Indianapolis News will prove interesting to local baseball fans:

"Doc' Newton's relatives in this city say that Ned Hanlon is after the Indianapolis pitcher and also Joe Corbett for his 1904 Brooklyn team.

"Both of these men have been doing agreat work in the California league, Newton leading all the twirlers by a safe margin. Hanlon has made both nien good offers for next year, and they will accept.

"Corbett has not pitched in the East for nearly four years. At that time he was a member of the Baltimore team under Hanlon, and his bood work was largely responsible for the team winging the pennant and beating Boston out in a series for the championship cup. With these two men and his company, and the company, and the company, and there are everything; mothers pothing:"

share block of stock contrary to the wishes say of one-fifth of the stockholders, can be explained only on the ground that thes believe themselves to be the only people in the community who are competent to fill the bill, and to properly manage the affairs of the company. This sentiment was modestly voiced at the meeting held last week at the Arlington schoolhouse by Francis Cuttle, vice-president, manager, superintendent and director of the water company, and Mr. Frost's first and only choice for the presidency. Mr. Cuttle said in effect that the reason he was proud to be Mr. Frost's candidate was because he knew he could fill the bill, and that without him at the helm the company would fall into incompetent hands.

This makes the outlook gloomy for the company, and the community in general, should the stockholders, on December 5, see fit to elect some one other than Cuttle to the presidency, and thus thwart President Frost's pet scheme to perpetuate his reign of pepotism. DARING BURGLARIES.

POMONA, Nov. 10.—Three daring burglaries were committed here last pight, and evidences point to the fact night, and evidences point to the fact that the work was done by a professional key-nipper. The residence of E. C. Bichowsky was entered through a side door and \$15 secured from a purse taken from Mr. Bichowsky's trousers pocket while he slept. Presumably the same burgiar entered Dr. Forester's room at his house and extracted \$25 from his pocket, and also Frank Mead's croom on Second street, securing quite a sum of money and valuable papers. The home of F. W. Smith was broken into, but the burgiar was scared away before anything was disturbed.

LORDSBURG. TREE-FELLING STOPPED.

LORDSBURG. Nov. 10.—For a week this town has been in a turmoil of excitement over the wholesale cuttingdown of the eucalyptus trees which for many years have given the only shade along the streets. The feeling was the more bitter because the trees were cut by order of David Kuns, owner of the adjoining property. Kuns owns most of the neglected vacant lots in town. A petition to the Board of Supervisors signed by the leading citizens of the town, protesting against the destruction of these trees, brought prompt instructions today to the road overseer to stop further cutting. The law prohibits any shade trees being cut without permission of the Supervisors, and imposes a penalty of \$100. A fine was paid here once.

The feasibility of transferring the retail business section of San Pedro to some desirable site along Pacific avenue and intersecting streets is being freely discussed. While there is no congestion now, in a few years all available space along the water front and in the present business section will probably be required for warerooms and freight depots.

There is even talk of some wholesale houses being established here, and in that event the only suitable sites for the buildings would be on lands contiguous to the railroads and steamships. As lands practically on a level with the railroads are only to be had in the businers section of the city, some such move seems not only practicable, but inevitable.

Wilmington is planning to reach out for commercial prestige. There is talk of having the channel dredged to adrit of deep-draft steamers and give to the city considerable valuable land by reclamation.

In this shell, about half way between the piles and its inner surface, is placed a steel screen, heavy enough to hold a tremendous strain, and then the entire space between the wood and the piles is filled with cement. This is worked down and into the screen, which gives rigidity when once the cement thas set, and prevents it from cracking when acted on by waves and wind. This form of construction has the indorsement of the State Board of Harbor Commissioners, and is used very largely in San Francisco. A WONDERFUL DISCOVERY OF INTEREST TO MEN.

OF INTEREST TO MEN.

Los Angeles is interesting people from all over the world for its climatic and other advantages, and we today can boast of being represented in every business and profession by the most skilled and enterprising men. The above inducement brought to the Coast years ago, Dr. Gross, the only medical man who has been successful in restoring weak and debilitated men to strength and vigor. There are many who can give temporary relief or stimulate them, which in the long run does more harm and leaves the sufferer a physical wreck.

Dr. Gross is the originator of the Goat Lymph treatment which has done miraculous work in curing all nervous diseases, such as paralysis, locomotor-ataxia, loss of memory, and has even given to old men, vigor and power that had been lost to them for years. Dr. Gross Goat Lymph caused quite a sensation years ago in the

years. Dr. Gross' Goat Lymph caused quite a sensation years ago in the East, and he has cured many men while here who will gladly testify to what has been one for them, if you wish to interview them. The doctor has permission of some of our leading business men to use their name. Dr. Gross has offices at 245% South Spring street where he will be glad to talk to any man wishing information in regard to his advanced methods. roday, after the Nystrom affair had been presented, the attorneys patched up an agreement, whereby the father was to have one child and the mother the other. Counsel for Nystrom then moved to withdraw the charges against the mother, but Judge Conklin would not listen to the proposal, saying there was unquestionably a case of rank perjury on one side or the other, and the should place the matter in the hands of the District Attorney for investigation. He said, furthermore, that if Nystrom's aftorney, L. E. Dadman, knew of the facts as appeared by Nystrom's affidavits, he was guilty of unprofessional conduct and subject to disbarment. But Dadman says he has affidavits offsetting Nystrom's affida

When the Game Lagged.

To celebrate the twenty-first birthda; of a Southern gentleman, one of our half-penny papers tells us, there have been rejoicings on the line of "21 of everything." At 21 minutes past 9 everything." At 21 minutes past 9
21 rockets were sent up to summon to
the house 21 people of the age of 21.
The guests sat down to 21 dishes, and
the young gentleman's father presented
him with £21. There were 21 dances
and 21 songs and 21 kisses. The party
lasted 21 times 21 minutes. But 21 papers could not be found to print this
momentous intelligence. [London 75c Metallic Cordurous per ud. 58c
